NORTH ARROW MINERALS INC.**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

For the Nine Months Ended JANUARY 31, 2013

(Unaudited – Prepared by Management)

(Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

North Arrow Minerals Inc. (the “Company”) is incorporated federally under the laws of the Canada Business Corporations Act (“CBCA”).

The consolidated financial statements of the Company are presented in Canadian dollars, which is the functional currency of the Company. The Company trades on the TSX Venture Exchange (TSXV – NAR) and its registered office address is Ste. #860-625 Howe Street, Vancouver, BC, Canada V6C 2T6.

The Company’s principal business activity is the acquisition and exploration of exploration and evaluation assets. To date, the Company has not generated significant revenues from operations and is considered to be in the exploration stage.

The Company is in the process of acquiring and exploring its exploration and evaluation assets and has not yet determined whether these properties contain reserves that are economically recoverable. These financial statements have been prepared on the assumption that the Company will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the normal course of operations. At January 31, 2013, the Company has a deficit of \$11,970,246, a \$142,865 working capital deficiency and no current source of revenue. The Company’s continuation as a going concern is dependent on its ability to raise funds sufficient to meet current and future obligations. Management plans to raise additional funds through private placement financings. There can be no assurances that management’s plans for the Company will be successful. These material uncertainties may cast significant doubt upon the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of assets and liabilities that might be necessary, should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION**Statement of Compliance to International Financial Reporting Standards**

The Canadian Accounting Standards Board (“ASCB”) confirmed in February 2008 that International Financial Reporting Standards (“IFRS”) will replace Canadian generally accepted accounting principles (“GAAP”) for publicly accountable enterprises for financial periods beginning on and after January 1, 2011. The Company adopted IFRS with a transition date of May 1, 2010.

These consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with IFRS as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). Certain of the comparative numbers have been adjusted to conform with IFRS policies finalized April 30, 2012.

Principles of Consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries Carolina Lithium Inc., (“Carolina Lithium”) up to its dissolution in August 2011 and Compania Minera North Arrow Chile Limitada (“Minera”). All inter-company transactions and balances have been eliminated upon consolidation.

Significant accounting estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, profit and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

NORTH ARROW MINERALS INC.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the Nine Months Ended JANUARY 31, 2013

(Unaudited – Prepared by Management)

(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION- continued

Significant accounting estimates and judgments- continued

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and further periods.

Significant assumptions relate to, but are not limited to, the following:

- The carrying value and the recoverability of exploration and evaluation assets, which are included in the statements of financial position.
- The inputs used in accounting for share-based payment expense which is included in the statement of comprehensive loss. These estimates are derived using the Black-Scholes option pricing model or are based on the value of comparable goods and services. Inputs are determined using readily available market data.
- The inputs used in determining the liability and equity components of convertible notes and values used on settlement.
- The recognition of deferred tax assets is determined on whether it is more probable than not that these assets will be recovered.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's financial instruments consist of cash, marketable securities, receivables, accounts payable and accrued liabilities, due to related parties and a convertible note. Cash is carried at fair value using a level 1 fair value measurement. The carrying value of receivables, accounts payable and accrued liabilities and due to related parties approximate their fair values due to their immediate or short-term maturity. Marketable securities are recorded at fair value based on the quoted market prices in active markets at the balance sheet date, which is consistent with level 1 of the fair value hierarchy. The Company's convertible note was a compound financial instrument that contains a liability component and an equity component, being the conversion feature on the note. The fair value of the liability component was determined first with any residual value allocated to the equity component. The fair value of the liability component was determined using a level 3 fair value measurement. Over the term of the convertible note, the liability amount will increase to the face value of the convertible note through the accretion of interest.

The Company is exposed to a variety of financial risks by virtue of its activities, including credit risk, interest rate risk, liquidity risks, foreign currency risk, and equity market risk. The Company's objective with respect to risk management is to minimize potential adverse effects on the Company's financial performance. The Board of Directors provides direction and guidance to management with respect to risk management. Management is responsible for establishing controls and procedures to ensure that financial risks are mitigated to acceptable levels.

Credit risk

Credit risk is the risk of financial loss to the Company if counter-party to a financial instrument fails to meet its contractual obligations. The Company manages credit risk by investing its excess cash in short-term investments with investment grade ratings, issued by a Canadian chartered bank. The Company's receivables consist primarily of sales tax receivables due from the federal government and receivables from companies with which the Company has exploration agreements or options. The maximum exposure to credit risk at the reporting date is the carrying value of the Company's receivables and cash.

NORTH ARROW MINERALS INC.**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

For the Nine Months Ended JANUARY 31, 2013

(Unaudited – Prepared by Management)

(Expressed in Canadian Dollars)

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT - continued*Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to interest rate risk with respect to its cash flow. It is management's opinion that the Company is not exposed to significant interest rate risk.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise the funds required through future equity financings, asset sales or exploration option agreements, or a combination thereof. The Company has no regular cash flow from its operating activities. The Company manages its liquidity risk by forecasting cash flow requirements for its planned exploration and corporate activities and anticipating investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of annual budgets and significant expenditures and commitments. Failure to realize additional funding could cast significant doubt on the Company's ability to continue as a going concern. As at January 31, 2013, the Company had cash of \$237,331 available to settle current liabilities of \$384,813.

Foreign currency risk

The Company has exposure to foreign currency risk through its exploration activities outside of Canada, however, the majority of its assets and liabilities are denominated in Canadian dollars. The Company's exploration activities and any related land tenure expense outside Canada could make it subject to foreign currency fluctuations, which may affect the Company's financial position, and cash flows. During the year ended April 30, 2012, the Company wound up its operations in the United States, however, its material business expenses in South America have been denominated in U.S. dollar and as such, the Company has been affected by changes in exchange rates between the Canadian Dollar and the U.S. dollar. The Company does not presently invest in foreign currency contracts to mitigate this risk. It is management's opinion that the Company is not exposed to significant foreign currency risk arising from these financial instruments. At January 31, 2013, the Company had no operations in the United States and has ceased all operations in South America.

Equity market risk

The Company is exposed to equity price risk arising from its marketable securities, which are classified as available-for-sale. The Company plans to sell its marketable securities as market conditions permit, or as is required to finance the Company's operations from time-to-time.

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of these assets are in good standing. During the nine months ended January 31, 2013, the Company wrote off \$75,524 (2012 - \$429,221) relating to certain properties and recorded \$nil (2012 - \$80,488) in recoveries.

Gold and Base Metal Properties, Northwest Territories, Yukon and Nunavut

In addition to the properties described below, the Company maintains interests in various other gold and base metal properties in the Northwest Territories, Yukon and Nunavut.

Hay Duck Property, NWT

On May 29, 2008, the Company and Strongbow Exploration Inc. (“Strongbow”) entered into an option agreement whereby the Company may earn a 100% interest in the Hay Duck property by reimbursing certain expenditures incurred to-date by Strongbow and assuming the annual option payments due under an underlying option agreement with a third party.

NORTH ARROW MINERALS INC.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the Nine Months Ended JANUARY 31, 2013

(Unaudited – Prepared by Management)

(Expressed in Canadian Dollars)

7. EXPLORATION AND EVALUATION ASSETS - continued

Hay Duck Property, NWT – continued

The third party agreement, dated May 2007 and amended April 2009 and January 2010, requires four future annual cash option payments totalling \$475,000. These future option payments will be payable by the Company annually, following receipt of a land use permit allowing the Company to drill at the property. As partial compensation for amending the agreement, the Company issued 50,000 common shares to the property vendor in May 2009 and an additional 50,000 shares in February 2010. At the date of issuance, the common shares had fair value of \$6,250 and \$9,750 respectively, which has been applied against the \$25,000 payment due January 1, 2010. The remainder of the January 2010 payment will be paid by the Company upon receipt of a land use permit for the Hay Duck property. The third party option holder will retain a 2.5% NSR of which 1% can be purchased at anytime for \$500,000. An additional 1% of the royalty can be purchased at any time for \$2,000,000. Upon the Company incurring \$5,000,000 in exploration on the property, Strongbow may elect to back-in to 40% of the Company's interest in the property by funding the next \$5,000,000 in exploration expenditures. In certain circumstances, Strongbow has the option to elect to acquire a 1% NSR in place of exercising the back-in right. The Company may purchase one-half (0.5%) of the NSR at any time for \$500,000. Strongbow and the Company are related by the fact that the President and CEO of the Company is also a director of Strongbow and the President and CEO of Strongbow is also a director of North Arrow.

Hope Bay Property, NU

On January 28, 2011 the Company entered into an agreement with Chelsea Minerals Corp. ("Chelsea"), whereby Chelsea has the option to earn a 60% interest in the Company's Hope Bay Oro gold project in Nunavut, consisting of five mining leases. Under the terms of the agreement, Chelsea may earn up to a 60% interest in the project by making an initial cash payment of \$50,000 (received) and spending \$5 million over a five year period. A minimum expenditure of \$500,000 is required in the first year (complete). In May 2011, Chelsea was acquired by Sennen Resources Ltd. ("Sennen") pursuant to a Plan of Arrangement. Sennen has assumed Chelsea's obligations pursuant to the agreement for the Hope Bay Property. On February 1, 2013 the Company and Sennen signed an amending agreement that extended the length of the option term from five to six years.

Seagull Property

The Company entered into an agreement in May 2011 whereby the Company can earn a 100% interest in certain mineral claims known as the "Seagull Property" from Panarc Resources Ltd ("Panarc"). Under the agreement, the Company must make an initial \$15,000 cash payment (completed) and issue 100,000 common shares (completed). The Company must incur aggregate exploration expenditures of \$300,000 within a 3 year period. Panarc will retain a royalty equal to 2% of net smelter returns, of which the Company may purchase one percent (1.0%) for \$1,000,000, such that the royalty would be reduced to 1.0%. At the time of the May 2011 agreement, Panarc and the Company were related by virtue of a common director. During the period the Company returned the property to Panarc and wrote off \$75,524 of related costs.

Contwoyto, Nunavut

Between June and September 2011, the Company acquired, by staking, certain mineral claims in the Contwoyto Lake area, Nunavut.

In July 2012, the Company announced that it had entered into an agreement with a subsidiary of Elgin Mining Inc. ("Elgin"). Under the terms of the agreement Elgin can earn a 60% interest in the Company's Contwoyto properties by spending \$6 million over a six year period.

Nunavut Tunngavik Incorporated ("NTI") Properties, Nunavut

The Company has a 100% interest in the Nunavut Tunngavik Incorporated ("NTI") properties located in the West Kitikmeot region of Nunavut. If a feasibility study is completed on any area within the NTI properties, NTI has the option of taking either a 20% participating interest or a 7.5% net profits royalty in the specific area subject to study.

7. EXPLORATION AND EVALUATION ASSETS - continued

Diamond Properties, Northwest Territories and Nunavut

Lac de Gras, NWT

In August 2011, the Company entered into an option agreement with Harry Winston Diamond Mines Ltd. (“Harry Winston”), and Springbok Holdings Inc. (“Springbok”), to jointly explore the Company’s LDG/GT Property and Harry Winston’s land holdings contiguous to the Company’s Lac de Gras property (collectively, the “JV Property”).

Harry Winston must incur exploration expenditures of at least \$5,000,000 over a 5 year period to allow the option to vest. Upon vesting, a joint venture will be formed whereby Harry Winston will hold a 55% interest and the Company and Springbok will share equally a 45% interest in the JV Property.

On October 25, 2012, subject to regulatory approval, the Company entered into an agreement with Springbok Holdings Inc. (“Springbok”) to acquire Springbok’s 50% interest in the LDG/GT Property (“the Springbok Interests”). The Springbok Interests include the right to obtain a 22.5% interest in the JV Property, subject to the terms and conditions of the option agreement among Springbok, the Company and Harry Winston. The JV Property consists of the 81,500 acre LDG/GT Property as well as 226,000 acres controlled by Harry Winston. Under the terms of the agreement with Springbok, the Company has agreed to purchase the Springbok Interests for 10,000,000 pre-consolidated common shares of North Arrow at a pre-consolidated value of \$0.05 per common share. As additional consideration, in the event that Harry Winston exercises its option and earns a 55% interest in the JV Property and the Company subsequently incurs \$2 million in joint venture expenditures on the JV Property, the Company will issue to Springbok that number of common shares of the Company having a value of \$1 million.

Hammer, Nunavut

In October 2008, the Company and Stornoway Diamond Corporation (“Stornoway”) revised a pre-existing agreement on the Bear property, Nunavut, to include an area of interest, known as the “Hammer AOI”, into the agreement. As a result of this revision, the Company holds a 25% interest in the property and Stornoway holds a 75% interest. No further work is planned and as such exploration expenditures totaling \$367,686 were written off for the year ended April 30, 2012.

Timiskaming, Pikoo and Qilalugaq Diamond Projects, Canada

On March 14, 2013, subject to regulatory approval, the Company entered into an assignment agreement with 0954506 B.C. Ltd. (“BCCo”) under which BCCo has agreed to assign and transfer to the Company all of BCCo’s interest and obligations in certain options to earn an 80% interest in the Timiskaming, Pikoo and Qilalugaq diamond projects. Stornoway Diamond Corporation (“Stornoway”) is the holder of a 100% interest in all three projects and had granted BCCo options to acquire the 80% interests in the projects. BCCo is a private company controlled by a party related to the President and CEO of the Company. Stornoway will retain a one-time right to buy-back a 20% interest in any of the projects once the Company completes an option work program and provides Stornoway of its intent to vest an 80% interest in a project. Under the terms of the agreement, the cost of the buy-back will be equal to three times the costs incurred in connection with the applicable option work program.

Under the terms of the assignment agreement the Company will pay BCCo \$20,000 and issue BCCo 500,000 transferrable share purchase warrants. Additionally, the agreement requires the Company to complete a \$2,000,000 financing. Each share purchase warrant will entitle the holder to acquire one common share of the Company at a price of \$0.25 for a period of five years. The warrants will only become exercisable if the Company exercises an option to earn an interest in at least one of the Qilalugaq, Pikoo and Timiskaming projects.

Qilalugaq diamond project, Nunavut - The Company will have the option to earn an 80% interest in the Qilalugaq project by completing a work program that includes a 1,000 tonne mini bulk sample within two years of receipt of the required land use permit or no later than January 2018.

For the Nine Months Ended JANUARY 31, 2013

(Unaudited – Prepared by Management)

(Expressed in Canadian Dollars)

7. EXPLORATION AND EVALUATION ASSETS - continued

Pikoo diamond project, Saskatchewan - The Company will have the option to earn an 80% interest in the Pikoo diamond project by completing an option work program consisting of a minimum 2,000 meter diamond drilling program, including a minimum of two drill holes at each of the North and South target areas. The work program must be initiated by January 2015 and completed by January 2016.

Timiskaming diamond project, Ontario/Quebec - The Company will have the option to earn an 80% interest in the Timiskaming diamond project by completing an option work program that includes testing three separate geophysical targets with at least one diamond drill hole. The work program must be initiated by January 2015 and completed by January 2016.

8. CAPITAL STOCK AND RESERVES**Authorized share capital**

The authorized share capital of the Company is an unlimited number of common shares without par value.

Share issuances

During the nine months ended January 31, 2013, the Company issued 21,639,100 common shares (2012 - nil common shares) in settlement of a convertible note and interest totalling \$1,081,955 (2012 - \$ nil). In accordance with International Financial Reporting Standards a value of \$0.025 per share has been assigned this issuance being fair value.

During the nine months ended January 31, 2013, the Company issued nil common shares (2012 - 100,000 common shares) at a value of \$nil (2012 - \$18,000) pursuant to the Seagull property option agreement.

On February 28, 2013, the Company completed a consolidation of its share capital on the basis of one new share for every ten pre-consolidated shares.

On March 14, 2013, the Company announced that in conjunction with the BCCo assignment agreement, it intends to complete a non-brokered private placement of up to twenty million post-consolidated shares at a price of \$0.15 per share for total gross proceeds of \$3,000,000. The Company may pay commissions and finders' fees in connection with the financing.

Stock options and warrants

The Company's stock option plan (the "Plan") was approved by shareholders at the December 19, 2012 annual meeting. The Plan gives the directors the authority to grant options to directors, officers, employees and consultants.

The maximum number of shares to be issued under the Plan is 10% of the issued and outstanding common shares at the time of the grant. The exercise price of each option granted shall not be less than the market price at the date of grant less a discount up to 25% in accordance with the policies of the TSX Venture Exchange ("TSXV"). Options granted can have a term up to 5 years with vesting provisions determined by the directors in accordance with TSXV policies for Tier 2 Issuers, with a typical vesting period of 25% upon grant and 25% every six months thereafter.

As at January 31, 2013, the following stock options were outstanding:

Number of Shares	Exercise Price	Number of Shares Vested	Expiry Date
885,000	0.20	885,000	June 4, 2014
200,000	0.30	200,000	September 2, 2014
680,000	0.20	680,000	May 12, 2016
170,000	0.20	127,500	November 3, 2016

A summary of the Company's stock option activity is as follows:

Salaries and consulting ¹	\$ -	\$ 276,667
Share-based payments ²	17,477	136,163
Total	\$ 17,477	\$ 412,830

1 – When key management is working specifically on mineral properties their time is capitalized against the mineral property.

2 - Share-based payments are the fair value of options that have been granted to directors and key management personnel.

10. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

The significant non-cash transactions for the period ended January 31, 2013 were:

- a) The Company incurring exploration and evaluation expenditures of \$13,658 (2012 - \$35,744) that are included in accounts payable and accrued liabilities at January 31, 2013.
- b) The Company incurring exploration and evaluation expenditures of \$7,434 (2012 - \$8,639) that are included in due to related parties at January 31, 2013.
- c) The Company incurring exploration and evaluation costs receivable of \$ nil (2012 - \$61,167) that are included in receivables at January 31, 2013.
- d) The Company issuing nil common shares (2012 - 100,000 common shares) valued at \$nil (2012 - \$18,000) pursuant to a property option agreement and the Company received nil (2012 - 75,000) common shares with a fair value of \$ nil (2012 - \$15,488) from the sale of exploration data.
- e) During the period the Company issued 21,639,100 shares at a deemed value of \$540,977 in settlement of a \$1,000,000 convertible note plus \$81,953 of accrued interest.

11. CONVERTIBLE NOTE

On August 31, 2011, the Company closed a \$1,000,000 private placement of a convertible promissory note with Anglo-Celtic Exploration Ltd. (“Anglo Celtic”), a private company controlled by D. Grenville Thomas, who is the President and CEO and a director of the Company. The private placement consists of a convertible note, structured as an unsecured, interest bearing loan of \$1,000,000. Anglo-Celtic may convert at any time all or a portion of the principal amount outstanding into common shares of the Company at \$0.25 per share, which would result in the issuance of up to 4,000,000 common shares if the entire principal amount is converted. The loan bears interest at the Royal Bank Prime Rate plus 400 basis points. The loan accrues interest to the date of repayment; interest is calculated and accrued on a monthly basis.

The term of the loan is for two years, to August 31, 2013. Anglo-Celtic did not receive any warrants upon issuance of the convertible note, however, if the Company fails to repay the loan in full by August 31, 2012 or if the Company and Anglo-Celtic amend or re-negotiate the terms of the loan, Anglo-Celtic will have the right to convert the principal amount of the note into both common shares and an equal number of warrants, such warrants being exercisable until the August 31, 2013 due date.

(Expressed in Canadian Dollars)

11. CONVERTIBLE NOTE continued

The convertible note has been segregated into its respective debt and equity components on the date of issuance. The debt component, representing the fair value of the liability at inception, was recorded as a long-term liability. The remaining component, representing the residual value ascribed to the holder's option to convert the principal balance into common shares, is classified in shareholders' equity as "equity component of convertible note". Over the term of the note, the debt component will be accreted to the face value of the note by the recording of additional interest expense

	January 31, 2013	April 30, 2012
Principal amount	\$ 1,000,000	\$ 1,000,000
Less equity component of convertible note	(137,996)	(137,996)
Accrued interest	81,953	46,667
Accretion	75,271	39,534
Liability component	1,019,228	948,205
Amount settled by issuance of shares	(1,019,228)	-
Liability component	\$ -	\$ 948,205

On January 24, 2013, North Arrow completed a debt settlement agreement with Anglo Celtic Exploration Inc. under which North Arrow settled its outstanding debt with Anglo Celtic Exploration Inc. in the amount of \$1 million plus unpaid interest by the issuance of shares. At the time the settlement was agreed to the debt had a carrying value of \$1,019,228 and was settled by the issuance of 21,639,100 shares valued at a price of \$0.025 per share for a total value of \$540,977 resulting in a gain on settlement of \$478,251.

12. CAPITAL MANAGEMENT

The capital of the Company consists of the items included in shareholders' equity. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company. The Company's objective for capital management is to plan for the capital required to support the Company's ongoing acquisition and exploration of its mineral properties and to provide sufficient funds for its corporate activities.

The Company's exploration and evaluation assets are in the exploration stage. As an exploration stage company, the Company is currently unable to self-finance its operations. The Company has historically relied on equity financings to finance its operations. In order to carry out the Company's planned exploration programs and to pay for administrative costs, the Company will have to raise additional funds. To effectively manage the Company's capital requirements, the Company's management has in place a planning and budgeting process.
