News Release

NORTH ARROW COMPLETES TILL SAMPLING PROGRAM AT THE PIKOO DIAMOND PROJECT, SASKATCHEWAN

July 7, 2014

Trading Symbol: TSXV: NAR

#14-09

North Arrow Minerals Inc. (TSXV-NAR) is pleased to announce completion of the June 2014 till sampling program at the Pikoo Diamond Project in central eastern Saskatchewan. A total of 441 till samples were collected during the four week program, which was intended to follow up on the 2013 discovery of diamond bearing kimberlite within the 33,000 ha property (please see North Arrow news release dated [November 5, 2013](#) for complete details).

All 2014 till samples are at the processing laboratory. Sample processing is under way and scheduled to continue through July and August. Results from the program will be used to evaluate selected potential kimberlite targets and provide more detailed regional coverage of the eastern portion of the property where numerous positive till samples are located but sample density has been insufficient to define individual kimberlite indicator mineral trains. Follow up exploration, including drilling, is tentatively planned for the fall 2014 and winter/spring 2015.

The 2014 Pikoo exploration program is being conducted with Stornoway Diamond Corporation (TSX-SWY) under an 80% (North Arrow) / 20% (Stornoway) participating joint venture arrangement. North Arrow's diamond exploration programs are conducted under the direction of Kenneth Armstrong, P.Geol., President and CEO of North Arrow and a Qualified Person under NI 43-101. Mr. Armstrong has reviewed the contents of this press release.

About North Arrow Minerals

North Arrow is a Canadian based exploration company focused on the identification and evaluation of diamond exploration opportunities in Canada. North Arrow's management, board of directors and advisors have significant successful experience in the Canadian diamond industry. In addition to the Pikoo Project, North Arrow is planning the collection of a 1,500 tonne bulk sample from the Q1-4 kimberlite at its Qilalugaq (NU) Project and is also evaluating each of the Redemption (NWT), Lac de Gras (NWT), Mel (NU), Luxx (NU) and Timiskaming (ON/QC) Diamond Projects.

This news release contains "forward-looking statements" including but not limited to statements with respect to North Arrow's plans, the estimation of a mineral resource and the success of exploration activities. Forward-looking statements, while based on management's best estimates and assumptions, are subject to risks and uncertainties that may cause actual results to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: risks related to the successful integration of acquisitions; risks related to general economic and market conditions; closing of financing; the timing and content of upcoming work programs; actual results of proposed exploration activities; possible variations in mineral resources or grade; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes, title disputes, claims and limitations on insurance coverage and other risks of the mining industry; changes in national and local government regulation of mining operations, tax rules and regulations. Although North Arrow has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. North Arrow undertakes no obligation or responsibility to update forward-looking statements, except as required by law.
